

MD Financial Management

MD Fossil Fuel Free Bond Fund™

October 31, 2024

SERIES A: MDM440

INVESTMENT OBJECTIVE

The fund seeks to conserve principal and produce income (capital appreciation is a secondary consideration) by investing in a variety of Government of Canada, provincial, municipal, corporate and asset-backed bonds with medium to long terms to maturity. The fund may invest in foreign securities. Securities included will fit the generally accepted definition of fossil-fuel-free.

Management fees and operational expenses may be associated with mutual fund investments. Mutual funds are not guaranteed. Their values change frequently and past performance may not be repeated. To obtain a copy of the prospectus, please call your MD Advisor, or the MD Trade Centre at 1 800 267-2332. *The management fee includes the total fees paid by a fund to its manager or to one or more portfolio advisors or asset managers. The management expense ratio (MER) includes the management fee, as well as charges relating to administration fees and applicable taxes. As this is a new fund, the management expense ratio will not be available until it has been calculated for a financial year or interim period.

¹Returns and periods are measured in a rolling time period fashion, beginning in the first full period and rolling over month-by-month. The indicated fund rates of return are the historical annual compounded total returns including changes in unit value and reinvestment of all dividends or distributions and do not take into account sales, redemption, distribution or optional charges or income taxes payable by any security holder that would have reduced returns. Returns of one year or more are annualized. Risk level presented is as per the prospectus for the portfolio. Please read the prospectus for more information on the risks of investing in this portfolio. This document is not a Funds Fact Sheet. Income and capital gains are distributed if available. Quartile rankings are a measurement of how a mutual fund performs when compared with other funds within the same competitive universe. The Investment Funds Standards Committee defines peer groups. Fundata produces the rankings (first quartile is best; fourth quartile is lowest). Each fund is also assigned an available benchmark index(es) which best reflects the investment guidelines of the fund or category.

MD Financial Management provides financial products and services, the MD Family of Funds and investment counselling services through the MD Group of Companies.
