

MD Stable Income Fund

The MD Stable Income Fund is a segregated group annuity policy issued by MD Life Insurance Company.

November 30, 2025

MD Stable Income Fund's investment objective is capital preservation and growth through interest from fixed-income investments. Interest is calculated daily and credited monthly. The policy invests primarily in conservative fixed-term securities, which are normally held until maturity. This investment approach offers built-in security and makes returns less susceptible to potential swings in interest rates or stock market volatility.
